Agenda:

1. Introduction and project overview
2. Presentation of tender procedure
3. Site visit to location
4. Q&A session

Minutes:

The meeting started at 12:00 in the premises of the School center "Nikola Tesla".

Mrs. Željka Radulović, Director, opened the meeting and welcomed all participants. He briefly presented the *"Cross-border network for education and promotion of renewable energy"* project, its objectives, and relevance.

There were questions made by participants which were answered on site and all are included in clarifications most of which were related to short timeframe of the contract implementation.

Contracting Authority has decided to extend contract.

After the introduction, participants proceeded with the site visit to the location foreseen for the installation of equipment. The visit was conducted by project team members guided the company representatives and provided clarification on the boundaries of the designated parcel and its surroundings.

No additional question or remarks were raised during the site visit.

The visit was concluded at 13:00, and all participants confirmed their attendance by signing the official Site Visit Attendance List.

The site visit was successfully completed. All interested economic operators were provided with equal information regarding the location and the procedure, in accordance with the principles of transparency and equal treatment under the Interreg IPA Romania–Serbia Programme.
