Reference No	RORS00008/GHS/TD2
Datum, Mesto / Date, Place	07.11.2024, Smederevo

No	Question	Answer
1	As you describe in the Timetable (ITT), the provisional start date of the Contract is 02.12.2024. Since payments are only made from the 15th month of project implementation onward (Article 29 Payment and interest on late payment), does this imply that Info days we could plan after the 12th month of contract, because first payment is after 15 th month?	Events are to be organized in line with schedule of implementation of Project which is currently reflected in tender dossier for this service. It is possible that info days will be organized earlier or later depending on other activities in project which affect this service. In both cases there will be corresponding reschedule of payments for services performed
2	As you describe in ANNEX II: TERMS OF REFERENCE, 4.2 Specific work For the purpose of organization of 20 Info days, the Contractor will provide the following services: Providing min. 30 participants per event - Does this mean the Contractor must secure 30 attendees for each event, even though the Contractor is responsible for event organization and not primarily focused on working with the target group you defined (health institutions, family doctors, and patients)?	Contracting Authority will support Contractor for the implementation of this service but Contractor will have final responsibility for providing participants belonging to desired target group.
