Jems code:	RORS00008
Beneficiary name (in Romanian):	Institute of Cardiovascular Diseases Timișoara
Contact details:	13A Gheorghe Adam street., Timișoara, jud. Timiș, Tel: 0256 207 355 , Email: office@cardiologie.ro
Estimated date of publication in SEAP: /Estimated date of direct purchase: (as applicable)	03.11.2025
Estimated date for submission of offers:	03.11.2025-08.12.2025
Name of the procurement:	Aquisition of Medical equipments
Short description of the procurement:	Endowment of healthcare facilities - IBCVT will purchase 19 different medical equipment. This medical equipment will enable IBCVT to strengthen the resilience of Romania's health system by providing improved health care services for patients suffering of cardiovascular disease, out of which an important percentage are elderly people and, as a result, by improving their life quality and life expectancy. The medical equipment purchased by IBCVT within this project aims to: - Detect heart failure in the first stage - heart failure with preserved ejection fraction -, in order to raise

	awareness of risk factors and prevent worsening of patients' health; - Give accurate diagnosis of idiopathic dilated cardiomyopathy, hypertrophic cardiomyopathy, channelopathy, arrhythmogenic right ventricular dysplasia. Testing familial aggregation by applying questionnaires in cardiomyopathies with risk of sudden death; - Diagnose and recover patients with heart failure with varying degrees of systolic function alteration (ejection fraction below 40%); - Select patients for heart transplant, according to the result of the ergospirometric investigation (high oxygen consumption).
